

MATSON OHANA PORTAL USER GUIDE

OHANA PORTAL VESSEL ALLOCATION

How to fill in your forecast/demand?

After login in, you will see the Vessel Allocation web functions you have authorized for forecasting purposes.

1. User clicks on the **Vessel Allocation** link of the Ohana Portal menu.

2. User fills in the relevant forecast based on Mother Vessel ETD.

Pls refer the transit schedule: <https://www.matson.com.cn/transshipment>

3. How to fill it out and what should be noted:

Example: The feeder vessel ETD HPH: June 6, connects the mother vessel CLX: MWX 016E and MAX: MKI246E

➤ Please select:

• Select the corresponding Vessel Voyage

➤ Please fill in:

- ALL: Fill in the Total Forecast/Demand number per each vessel voyage.
- Specific Equipment type and size: If the specific equipment type/size are known, you can fill in the corresponding numbers; if not, you may leave it blank.
- Remarks: If you have any special requirements, you can fill in here.
- **Please ensure that the specific equipment type/size number has already been included in the total forecast/demand count (the column labeled "ALL") and avoid double-counting.**
- **Once completed, please click "Save".**
